Dear Friends,

This year has been a roller coaster for many of us and certainly for all of those who are facing a lung cancer diagnosis. At Lung Cancer Initiative, we have remained committed to our mission of advancing survivorship and providing support to those impacted by lung cancer through research, education and access programs. We are seeking your financial support to ensure that we can further our mission and continue critical programs for people like Conji Titus, a lung cancer survivor in Burlington, North Carolina.

Conji was a gas card recipient this year through the Lung Cancer Initiative’s Access to Care Gas Card Program which provides a $50 gas card to help with access to appropriate care and treatment.

“When I got that first gas card... to me, that was a lot of money. And, I just thought that was so generous of the Lung Cancer Initiative because we struggle and there are just not a lot of resources available to us. The gas card program, it seems small, but it makes a huge difference.”

Conji Titus, Lung Cancer Survivor

Through the generosity of supporters like you, since its inception in 2013, LCI has impacted more than 3,000 patients through the gas card program. In 2021 LCI will distribute 500 gas cards, but with an estimated 8,830 people diagnosed with lung cancer in NC each year, there are so many more people who need our help.

Your gift of $25, $50, $100 or more is critical because it will sustain programs like the gas card program and further our efforts to impact more people and ensure they can access the care and treatment that they need. Please consider a donation today to help make this possible.

It has warmed our hearts to see the support given across our organization over the past year, and we thank you. Now, more than ever, we know that together there is so much more we can do.

Sincerely,

Amy Cipau
President and Founder
Lung Cancer Initiative

Scan to watch the inspiring story of Tomma Hargraves, a lung cancer survivor and advocate and meet Conji Titus. This video was a part of the C2 Catalyst for Change Awards which recognized Tomma for her leadership in developing the gas card program and its impact on other lung cancer survivors.
