

LUNG CANCER SCREENING PROGRAM

RISK ASSESSMENT TOOL

If all three apply to you:

- Between the ages of 50 and 80*
- Smoking at least a pack a day for at least 20 years or two packs a day for 10 years
- Still smoking or stopped within 15 years

High Risk

Talk to your doctor about Low Dose screening Chest CT.

Checked two of the above, plus one or more of the following:

- Exposure to radon
- Exposure to asbestos or other cancer causing agents such as arsenic, beryllium, cadmium, chromium, nickel, coal smoke, soot, silica or diesel fumes
- History of other cancers
- Family members who have had lung cancer
- Personal history of lung disease
- Second hand smoke exposure

Intermediate Risk

Talk to your doctor to see if screening may be appropriate.

If you have checked fewer than three of the above...

Low Risk

Any questions, talk to your doctor.

Please visit www.LungCancerInitiativeNC.org for Lung Cancer Screening sites in North Carolina.

The Lung Cancer Initiative's mission is to advance survivorship and provide support to those affected by lung cancer through research, education and access programs.
