A FULL SERVICE MARINA

July 20, 1993

To Whom It May Concern:

RE: Marine Exhaust Systems

Please let this letter serve as a letter of recommendation regarding the personnel and the business of Marine Exhaust Systems.

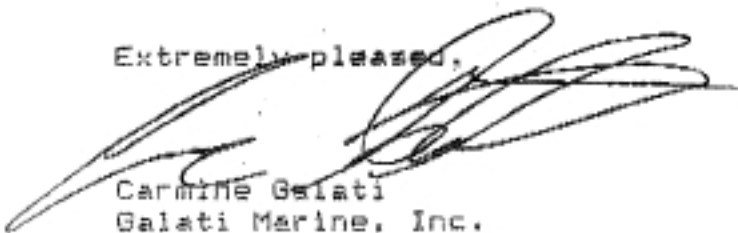

We are a full service marina and Detroit Diesel dealer facility in Anna Maria, Florida for the past 23 years, and never in all of our years of business have we ever dealt with anyone such as Marine Exhaust Systems.

Their industry knowledge, high standards of workmanship, quality, and work ethics are extraordinary as well as exceed anyone else we do business with. Many times we have called upon them and they've gone way out of their way to help me with deadlines, etc.

I am an extremely busy person who doesn't often find the time to write letters of any sort, however, I'm pleased to take this time to pass along my experiences in working with these people.

If everyone else in the industry would do half of what they do, the world would definitely be a better place.

Extremely pleased,

Carmine Galati
Galati Marine, Inc.
