

CIVIL ENGINEER 3

OUR FIRM

Jonathan T. Ricketts, Inc. is a Civil Engineering and Construction Management firm in Palm Beach Gardens, FL that has provided quality engineering and design services to our clients since 1990. Our firm services clients all throughout Florida and the southeast US, specializing in everything from design and permitting to expert witness testimony.

This is a family-owned company that prides itself on integrity, quality, and company culture. We understand the importance of a work-life balance and offer schedule flexibility to accommodate your family's needs during traditional work hours such as afternoon school practices for children or occasional family presence during the workday.

JOB DESCRIPTION

Due to the ever-increasing demand for our design and construction management services, we are seeking a highly motivated and experienced **Civil Engineer 3**. The ideal candidate is someone with a strong desire to produce superior designs utilizing the latest in design technologies. This individual should have a strong desire to participate in a team environment and a genuine interest in developing their expertise in a number of categories within civil design such as residential, commercial, industrial, golf course communities, and marinas. This role would work alongside senior engineers on projects ranging from paving, drainage, and roadway designs to gathering data for developing a rationale for permit applications of regional significance. This role requires utilizing current software including AutoCAD Civil 3D Design, ICPR3 and 4, LiDAR and other recently developed remote sensing technologies.

RESPONSIBILITIES

- Complete assigned tasks according to established project scope, budget, and schedule for multiple assigned projects
- Prepare and review design computations for water, sewer, and drainage systems
- Conduct construction site visits to monitor progress, host inspections, and conduct field assignments (mileage is compensated)
- Prepare local, state, and federal permit applications for agencies such as any of the five water management districts in the State of Florida, the Army Corps of Engineer (dredge and fill), Florida Department of Transportation (driveway connections and drainage permits)
- Prepare project design packages including technical drawings, specifications, schedules, and cost estimates
- Assist the team by executing additional duties and responsibilities as assigned

REQUIREMENTS

- Bachelor's Degree in Civil Engineering
- At least 3-5 years of relevant work experience
- Strong AutoCAD (Civil 3D) design skills
- Ability to work both independently and collaboratively

REQUIREMENTS *(Continued)*

- Detailed oriented with strong analytical skills
- Time management and organizational skills
- A willingness to perform a variety of tasks as needed to complete an assignment and satisfy project demands
- Excellent written and verbal communication skills

DESIRED

- Licensure as a Professional Engineer (or the ability to obtain within twelve months of hire)

BENEFITS

- Competitive salary
- Flexible schedule
- Premium health, dental, and vision insurance options
- Employee Assistance Program
- Flexible Spending Plans
- Simple IRA (after 90 days)
- Paid & observed holidays
- Paid Time Off
- Team lunch outings
- Opportunity to deepen your expertise in a dynamic work environment
- Possibility for continued education, tuition reimbursement, and additional licensure

EQUAL OPPORTUNITY EMPLOYER

Jonathan T. Ricketts, Inc. is an Equal Opportunity/Affirmative Action employer. All qualified applicants will receive consideration for employment without regard to age, color, creed, gender, sex, genetic information, marital status, national origin, race, religion, protected veteran status, sexual orientation, individuals with disabilities, or any other characteristic protected by law.

Job Type: Full-time

Pay: \$70,000.00 - \$90,000.00 annual salary, commensurate with experience.
