# EVALUATION OF DIRECT ENHANCEMENT SERVICES

## Evaluation of Direct Enhancement Services

### COMPREHENSIVE CONSUMER EDUCATION

Describe how the Coalition coordinated resource and referral programs specifically related to the provision of comprehensive consumer education to parents and the public regarding participation in the school readiness program and parental choice.

The Coalition provides comprehensive consumer education to parents and the public about the School Readiness program and parental choice through several channels. Most directly, upon contacting the Coalition through its Child Care Resource and Referral phone line, visiting one of its locations, or accessing the website, parents and the public can find early learning resources, information and program access. Further, the Coalition produces monthly newsletters, distributes electronic mail announcements and performs outreach at community events. The Coalition also maintains a strong social media presence through its website, Facebook, Twitter, YouTube, Pinterest accounts, and is starting to send alerts through SMS text messaging. These social media networks are used to keep stakeholders informed of timely developments about early childhood education and child care in the county. Finally, the Coalition has an increasing presence in Palm Beach County through its mobile (rover) team that serves the community to provide information and offer technical assistance.

### PROVIDER FINANCIAL SUPPORTS

Provide a list of grants, awards, or bonuses offered to school readiness program providers to assist them in meeting applicable state requirements for child care performance standards, implementing developmentally appropriate curricula and related classroom resources that support curricula, providing literacy supports, and providing professional development.

Include the qualifying criteria to receive financial supports and related monitoring activities to verify appropriate use of support.

The Coalition implements the Performance Funding Program (PFP) funded by the Florida Office of Early Learning. Under PFP, selected child care providers with at least 20% School Readiness enrollments can earn additional funding for improving School Readiness program outcomes. PFP providers and their teachers must maintain high-quality teacher-child interactions as demonstrated, by, the Classroom Scoring Assessment System (CLASS).

To further support providers in understanding CLASS, the Coalition conducted workshops on the tool for infant/toddler and pre-k teachers. Classroom learning materials were provided to all participants in attendance. The Coalition also sponsored 15 Family Child Care Home providers with an opportunity to attend the Florida Family Child Care Home Association Conference (FFCHA).

### TRAINING AND TECHNICAL ASSISTANCE

Provide a list and description of the trainings and/or technical assistance activities the coalition offered to school readiness program providers, staff, and parents in the following areas:

---

# EVALUATION OF DIRECT ENHANCEMENT SERVICES

The Coalition continues to offer numerous training opportunities and technical assistance to its staff, providers, and parents. Coalition staff were trained in several areas and can design and implement trainings in Early Childhood Education for Palm Beach County child care providers.

Trainings and technical assistance are offered on core competencies for child care providers. These trainings further develop providers' skills to institute developmentally appropriate curricula, enhance teacher child interactions and create learning environments for children birth to 5. Trainings are provided in a variety of settings including: on an individual basis, in small groups, or in large groups and are delivered in 1-3 hour workshops or over time in a series. Further, each training is divided to focus on preschool age group or infant/toddler age groups. Teachers who participate in the Coalition's trainings earn in-service hours. The Coalition offers the trainings in both English and Spanish to providers and parents. Coalition staff facilitated the following trainings the last fiscal year:

## QUALITY ACTIVITIES FOR INFANT AND TODDLER CARE

**Provide a description of the quality activities and services the coalition provided to enhance infant and toddler care.**

The Coalition provides technical assistance and trainings to providers and teachers who serve infants and toddlers. Quality supports offered by Coalition staff are administered by conducting observations, modelling age appropriate activities to child care staff, and providing one-on-one coaching sessions in areas in which improvement is needed. Topics include: classroom environment, social and emotional growth, special needs, socialization and developmental learning.

Further, the Coalition connects parents to infant and toddler resources, such as access to community agencies that can address both individual and behavioral needs of infants and toddlers. Resources also include educational tips, child development assessments, and referrals to services. The Coalition also participates in the FOEL Infant and Toddler Network, community meetings, and infant and toddler mental health meetings and implements the CLASS Observation Tool. In addition to increasing the knowledge of Coalition staff in this area, participation in these activities help to reinforce staff skills needed to better support infant and toddler care. During the 2017-2018 fiscal year, the Coalition offered onsite technical assistance to over 250 child care providers through phone, email and on-site support.

## MONITORING

**Describe the process for monitoring of compliance with, and enforcement of, applicable state and local requirements.**

---

# EVALUATION OF DIRECT ENHANCEMENT SERVICES

Providers are chosen to be monitored based on a random sample. In addition to those randomly selected, high-risk providers are also monitored. A provider is determined to be high risk based on the criteria below:

- (a) Any Class 1 or multiple Class 2 violations issued by the Florida Department of Health
- (b) Post-Attendance Audit Monitoring (PAAM) discrepancies exceed 15% discrepancies
- (c) More than 7 areas of noncompliance during the onsite monitoring

The Coalition uses a state-wide monitoring tool to complete the monitoring review for School Readiness (SR) providers. For Voluntary Pre-Kindergarten providers, the Coalition developed internal monitoring criteria, in accordance with OAMI Grant Agreement requirements. Following the monitoring, Coalition staff reviews the monitoring report with the provider representative and discusses areas for improvement. If the provider falls below expectations, Coalition staff schedules and completes a follow up to address the areas of concern. The Coalition also monitors parent complaints via telephone/desk reviews and performs in person monitoring of the complaint.

100% of SR providers received a post attendance audit monitoring resulting in a total of \$12,260.22 returned to the Coalition.

## INCLUSION

**Describe the activities the coalition has implemented to promote inclusive child care including responding to Warm-Line requests by providers and parents and providing developmental and health screenings to school readiness program children.**

The Coalition's Inclusion Services Department implements several activities to promote inclusive child care throughout Palm Beach County. The Coalition places a heavy emphasis on providing resources and support to children with disabilities and other special needs. The Coalition offers the following inclusion support to parents and providers: Developmental Screenings, Child Development, Challenging Behaviors, and Special Needs Classroom Management.

The first point of access to the Coalition for inclusion services is through the Inclusion Warm Line, 561-600-9428 which is available to both parents and providers to access services for children with special needs. The Inclusion Warm Line provides information regarding general inclusion practices, social emotional health, developmental delays, special health care needs, American with Disabilities Act, Individuals with Disabilities Education Act and Section 504 of the Rehabilitation Act criteria and Autism Spectrum disorders.

The Coalition responds to requests within 72 hours and conducts on-site technical assistance to teachers at providers' locations. Technical assistance can also be delivered via telephone to parents and providers. During fiscal year 2017-2018, the Warm Line received 172 calls.

The Coalition provides strategies, curriculum, and environmental adaptations to the providers to effectively serve children with special needs. Trainings to providers are offered on social and emotional development, challenging behaviors, appropriate interactions and other special needs.

The Coalition offers assistance to providers in administering the Ages and Stages Questionnaire. In the last fiscal year, the Coalition completed 17,243 screenings in fiscal year 2017-2018. Of those

# EVALUATION OF DIRECT ENHANCEMENT SERVICES

screenings, 1,091 indicated one or more areas of concern, and were referred to our community partner, Home Safe through the Healthy Beginnings System of Care in Palm Beach County.
